

This image shows the typical non-technical ATM customer trying to make a withdrawal. The image is commenting on the fact that today's systems are much too complicated for the average user and more care needs to be taken by developers in order to accommodate every kind of customer. This issue not only costs customers their valuable time, but bank employees as well.

"No, that's 'Gilligan's Island.' You want to withdraw cash. Hit cancel and try again."
