Do NOT connect the JTAG-USB cable yet!

Digilent Adept Software Suite and JTAG-USB Installation (FernFerrert)

(Valid as of 07 Sep 2007 for version 1.7)

1. Login to your computer with full Administrator rights.

2. Go to \Spartan-3 Installation\Digilent Adept Suite\

3. Run "DASv1-9-1.msi"

4. Do NOT connect the JTAG-USB cable yet!

5. Run the installation executable, and accept the default installation folder. Finish installing the software before you connect the cable.

6. Connect the JTAG-USB cable to your computer. The cable does not need to be connected to the FPGA board for this procedure.

7. Windows-XP will launch the "New Hardware" wizard. Select "No, do not search" then select the option where you can specify the driver location.

8. Add the folder "C:\Program Files\Digilent\Adept Suite\Drivers" to the driver search path, and choose the file "dmodusb.inf."

9. You will see a message that says "your new hardware is ready to use" if the installation ended successfully.

10. All done!
